SIX-PAGE EDITION

Be just and fear not;  
Let all the ends thou aim'st at be  
Thy Country's, thy God's, and Truth's.

TUESDAY, FEB. 9, 1892.

The list of members of the coming Legislature published this morning will be subject to revision when the final returns are received from the districts not yet fully heard from, viz., Kau, part of Kona and Puna, on Hawaii, and Hana on Maui. The candidates now supposed to be elected who may be affected by the vote in these districts, are Young and Hoapili on Hawaii and Josepa on Maui. Decisive intelligence will be received by the Kinau to-morrow. It is probable that all three are elected.

In the political classification we have made, there is a good deal of guess work. Several of the natives elected are more or less uncertain quantities. But one thing is clear, and that is that in the worst case the Liberals are outnumbered and out-voted.

AN ACCOUNT of the work in progress on the new church is published in another column, which shows that the building going up on the corner of Richard and Beretania streets will be a valuable improvement to the city. A large sum, \$35,000, is required, however, to complete the work, and subscriptions will have to be liberal if the church is not to be saddled with a debt. It is hoped that everyone who has an interest in the enterprise will open his heart and his purse, whether he is a member of the church body or not. Particu-

larly it is to be wished that funds may be obtained for the purchase of a fine organ. An organ fund is something to which all music lovers, and indeed the non-religious public generally, might well contribute, since the musical advantages offered will be free to all and something which everyone can enjoy. An effort is now being made to secure by subscription the money necessary to complete the building.

MR. KAUBI.

It has been suggested that an apology is due Mr. Kaubi for the offense of classifying him with the Liberals. Mr. Kaubi is said to have little complacency in Bush & Co., and to possess sense enough to appreciate the benefits of a railway to his native town, and the good points of the man who built it. In one of his dramatic addresses the other day, Mr. Kaubi called on his hearers to decide whether to stay with civilization and the railroad or relapse into barbarism and the maro. To a man they voted against the maro. Perhaps if he had been brought to Honolulu to electioneer for Mr. Dillingham the result might have been different.

As to Mr. Kaubi's party affiliations, it is strictly accurate to say that he has none. He is an independent who returned himself from his pocket borough.

## A TOTTERING HERO.

A Hawaii correspondent of the Bulletin speaks of the election of Koahou in Central Hilo as one that has given general satisfaction. He was opposed by Liberal candidates, whom he defeated badly. This is only one of many indications that the idolizing of Bush and Wilcox is practically confined to Honolulu. On Maui, observers of the situation say that the feeling of the natives toward these two popular heroes is decidedly cool, while the results in Kauai seem to indicate that the Liberal candidates would have polled more votes if Wilcox had kept away altogether. The wind which has carried that gentleman's name and fame to the ends of the earth, has turned his head indeed, but has blown him into good in this country, many countrymen beginning to regard him as what the Moreno-inspired American papers call him, the Head of the Annexation Party in Hawaii. Indeed, the indications of declining popularity are not wanting, and it is safe to say that the figure of this world-renowned hero is beginning to totter on its pedestal.

## THE UNITED STATES AND CHILE.

The Chilean news received by the Transit a few days since is confirmed by advices brought by W. H. Dimond. It appears that Chile has made an ample apology to the United States, and it looks as though the war-cloud had ceased to trouble the horizon. There is still time however for the newspapers to work up a new war-scare if not actually a war, and they will doubtless do all that lies in their power in that direction. It appears that young blood in Chile protests most hotly against any submission to the United States, and this is matter enough for a great sensation, so that the steamer Thursday may bring intelligence of a fresh turn of Fortune's wheel.

The unscrupulousness of the American press has been strikingly illustrated by the wanton way in which it has circulated unconfirmed or positively false rumors in regard to a possible war with Chile. If a war had come, it might have been largely due to journalistic levity and recklessness. The good sense of the American people has prevented them from being carried away on a wave of excitement which might have precipitated the country into an unnecessary contest. Great credit seems to be due also to the President and his Cabinet, who as far as can be learned at this writing, have conducted this delicate negotiation with equal firmness, dignity and moderation.

## The Illustrated Tourists' Guide.

That popular work, "THE TOURISTS' GUIDE THROUGH THE HAWAIIAN ISLANDS," is meeting with a steady sale both at home and abroad. Tourists and others visiting these islands should be in possession of a copy of it. It is a perfect mine of information relating to the scenes and attractions to be met with here. Copies in wrappers can be had at the publication office, 46 Merchant street, and at the News Dealers. Price 60 cents.

If you don't take the Advertiser you don't get the news!

## MOLOKAI.

## THE "DARK HORSE" GOT THERE.

Election of Nahinu Confirmed—  
Nazareta, the Liberal Candidate Retired.

The Steamer Mokolii arrived last night, and brought the news of the defeat of Nazareta, the Liberal candidate, as well as of Kapahaele and the others standing, by G. S. Nahinu. Rumors of this result had already reached Honolulu through private sources. The election of Nahinu was unexpected, as the liberal was supposed to be the strong candidate. Nahinu is declared by those who know him to be an anti-Wilcox man. The Mokolii also brought the returns for the Road Board.

## The Franchise!

OF GILBERT WALLER,

granted under Chapter LXXII. of the Session Laws of 1886 for fifteen years from February 4, 1887, authorizing the brewing of malt liquor, the license fee for which is paid in full to the end of the term. The consent of the Minister of the Interior is necessary to the transfer of this Franchise, but the Minister has already consented to a sale to any responsible person or company, and intending purchasers would do well to make some preliminary conditional arrangements in this matter.

A right of way is reserved along the lane leading to the lower lands, as is also the use of water from the well, as now piped.

The right to fix an upset price at the time of the sale is reserved. All deeds at purchaser's expense.

For further particulars apply to GILBERT WALLER at the Brewery, or to

## Hawaiian Hardware Co., Ltd.

Monday, Feb. 8, 1892.

Election is over and from the returns so far received it is evident that some of the candidates were elected, and those who were not are happy. In the States such periods are looked upon by the merchants as "off years;" the same may apply here, but now that the struggle is over, business commencing with to-day will improve and the people will settle back into the same old furrow of every day affairs.

Speaking of furrows—our "Hendry Breakers," by actual test, will turn a furrow better than any other breaker in the market. We tried it at Waialae, "all by its lonesome" and the result was so gratifying that it got into the papers. The very next day a plantation manager called on us and said he had read the article and wanted six of the plows, but would not order them until he had compared their work with other and older plows. One of ours was shipped to the plantation and tried with a half dozen others. The test was eminently satisfactory to us and to him. We have shipped the other five plows to him and he writes that "the 'Hendry Breaker' did the work easier and better than any of the others."

Constant inquiries regarding the Fischer Wrought Steel Range compel us to speak of them again in this column.

They are made throughout of wrought steel and will stand a hundred fold more knocks and bumps than they are apt to get during the life of any stove. The sides and back are made of two folds of steel and between them is placed sheet asbestos for the purpose of concentrating the heat within the oven—a very excellent arrangement in a climate as warm as this: it keeps the cook in a better humor and the stove bakes better than the one that throws all the heat into the kitchen. The fire brick (?) is made of steel and will not burn out as bricks made of clay will, and being made in a triangular shape they may be turned from time to time so that, as a matter of fact, they'll out last the cook. We doubt very much if you've ever had a stove that would be hot enough to bake fifteen minutes after you had started the fire—but this is the case with a Fischer Range and bake well, too—no "cook on the top and not on the bottom business," but will cook evenly.

We've sold a great many of the Fischer Steel Ranges and have never heard of a purchaser being dissatisfied. There is nothing about them that will cause a kick. There's not a weak point about them.

The term range is suggestive of bricks and mortar and fixing the stove to the building you live in. If you own your house it would make no difference, but if you don't—"there's the rub." The landlord might tell you not to move the range because the law permits him to retain anything fastened to the premises. The Fischer Range is no different from any other stove in this respect—it is not fastened permanently, requires no bricking up and may be moved about at your pleasure. They are an interesting thing to look at and we will be pleased to show you their good points at any time.

## "LOOKING BACKWARD,"

May be a pleasing pastime, but we take more pleasure in "Looking Forward" to the time when the growing population of Honolulu will all become convinced that they can buy Drugs and Toilet Articles for 14 hours each day, from 6:30 A. M. to 8:30 P. M. at our New Store.

The last steamer from Australia brought us an invoice of goods, which included some Pears' Soap. You have already formed an opinion as to its merits; we know thousands who have rendered a verdict in its favor; it is on trial in our store.

There are some things soap cannot remove, but our Velvet Pumice Stone, put up in attractive little blocks, will remove ink stains, discolorations and callous skin, leaving the hands beautifully soft and clean. Sometimes you've had your hands feel very rough and gritty. Its a very unpleasant sensation which can be avoided by having a jar of our Cold Cream and apply to the affected members. Sore and chapped hands and faces will be soothed and refreshed after using this remedy.

We keep Powders! Most of them harmless, especially the Complexion Powders. We have all the popular makes—Pozzoni, Lablache, Swansdown and others. Tooth-powders: Oriental, Thurston's, Lyon's, Cald'er's—all good preparations for the teeth. Tooth-powders are of little account unless you have a good Brush; we believe ours are the best in the town. Toothpicks, too, either wood or quill, can be had at our store.

There are more people in Honolulu than any other town of its size who keep horses. But sometimes they don't keep—they die. We know that there is danger at this season of the year. Animals should be kept in a healthy state, and there is nothing better than giving them our Alterative Condition Powders to prevent sickness.
